Introducing Mubadala Petroleum
About Mubadala Petroleum

Mubadala Petroleum is a leading international oil & gas company recognized for our people, partnerships and operating excellence. Established in 2012, over the years we have built a diverse portfolio of assets and operations spanning ten countries, with a primary geographic focus on the Middle East and North Africa, Russia and Southeast Asia.

Mubadala Petroleum is wholly-owned by Mubadala Investment Company (Mubadala), which is owned by the Government of Abu Dhabi.

Our portfolio is competitively positioned to ensure we are consistently delivering returns to our shareholder and meeting growing energy demand in a safe, sustainable and efficient way.

Mubadala Petroleum aims to have a positive long-term impact by creating and contributing to sustainable development programs in the communities in which we operate. This approach is inspired by the values of the UAE’s Founding Father, the late Sheikh Zayed bin Sultan Al Nahyan, who believed in human development, sustainability and respecting all mankind.

Our Impact

Since our inception, sustainability has been an essential foundation of our strategy underpinned by the belief that creating value for our shareholders, our employees, and wider society is key to the resilience of our business.

Our Sustainability Framework guides all our activities, balancing our passion for people, with our commitment to creating a positive environmental impact, whilst delivering on our promise of value creation for our shareholder.

Our portfolio is competitively positioned to ensure we are consistently delivering returns to our shareholder and meeting growing energy demand in a safe, sustainable and efficient way.

Mubadala Petroleum is wholly-owned by Mubadala Investment Company (Mubadala), which is owned by the Government of Abu Dhabi.
